

Pan Oiler

AccuSpray's Pan Oiler provides the most accurate spraying technology of oil-based release agents. Advanced design and recipe-driven programming allows for precise control over the volume, rate, and pattern of release agent application. Specifically engineered to reduce oil usage, minimize waste, improve sanitation, and reduce maintenance time.

Features

- **Precise Pulse Width Modulation (PWM):** Spray nozzle control for accurate release agent placement within the pan and minimized waste due to overspraying
- **Absolute Positioning of Spray Nozzles:** Vertical position of spray nozzles saved according to product and pan height
- **Oil Temperature Control:** Closed loop temperature control system provides quick and consistent heating of oil to provide consistent viscosity
- **Integrated Mist Collector:** Small, easy to clean collector to minimize oil mist migration and improve the sanitary conditions in the bakery
- **Ultrasonic Tank Level Control:** Tank fills automatically when certain level is reached
- **Stainless Steel Tabletop Conveyor:** 1/2 HP shaft mounted 3 phase drive motor
- **Self-Centering Automatically Adjusted Pan Guides:** Position saved according to product saving time and labor for product changeovers
- **Stainless Steel Frame:** Includes removable stainless steel catch pan and hood with slide out feature for quick and easy access for sanitation and maintenance procedures
- **Stainless Steel Casters:** Heavy-duty swivel casters with leveling adjustment
- **Operator Interface Controls:** Product, nozzle and guide positions, dosing, delays and timing, and oil temperature settings are all programmable
- **NEMA 4X Stainless Steel Electrical Enclosure**
- **UL, cUL Compliant Controls**
- **ANSI, USDA, and CE Compliant**

Optional Features

- **Infeed Magnetic Metering Conveyor**
- **Pneumatic Barrel Pump**
- **Locating Latch Mechanism:** Allowing oiler to be securely positioned to the line
